Our Mission

***Empower diverse
women to excel in
technology careers.***

Our Vision

A tech industry where diverse women and historically excluded people thrive at every level.

WOMEN WHO
CODE®

Our Values

Focus on the mission

Always remember why we're here and who we're here for.

Design for inclusion

Make space. Embody a culture of belonging.

Advocate for change

Live leadership. Champion each other. As a community, we are powerful.

Journey forward

Recharge. Celebrate wins. Break Barriers.

What is Leetcode?

- Tech interview preparation site - lots of practice questions on data structures and algorithms.
- Material similar to other online coding resources and tech books.
 - Cracking the Coding interview
 - HackerRank
 - CodeWar/CodeFight/
 - Career Cup
 - Geeks for Geeks

Leetcode features

- Data structure and algorithm questions.
- Different categories & levels
- Continuously updated.
- Past questions seen at various tech companies.
- Fairly exhaustive list of test cases - ensures that the solution you implemented works.
- Different languages supported
- Some official solutions
- Lots of discussion threads - solutions and explanations from users.
- Contests - Weekly contests of new problems you have to solve.

Is it free?

- Need to sign up for account

Free -

- hundreds of questions. Plenty of practice available. More than enough.
- Free to read discussion threads

Premium - monthly/annual subscription

- Unlocks some extra problems.
- Unlocks some official solutions, esp the ones that have explanation videos
- Find questions tagged for certain companies
- Has an “online assessment” feature
- Overall, premium subscription NOT needed.

How to use Leetcode

- Pick questions 'randomly' - "pick one"
- Pick questions based on
 - Difficulty level
 - Data structure/algorithm
- Official leetcode lists
 - Top interview questions
 - Top liked
 - Top google
 - Top facebook
 - Algo curated top Algo
- Pick problem and solve related problems

Explorer Cards

- Major Data Structure/Algorithm Topics - in depth
 - Tutorial articles
 - Carefully selected problems to help reinforce certain concepts
 - Example:
 - Recursion I
 - Arrays
 - Graphs
 - Heaps
 - Dynamic Programming

Problem of the Day - Each Month

- 1 daily problem
- Must complete on the day it is released
- Do problems of every day of the month to receive a badge
- If miss a day, can use “time traveler” pass to save. Max 3 times a month
- Get pass with leetcode coins
- Buy leetcode coins
- Varying levels of difficulty

Thank you
